Man Down: Proof Beyond A Reasonable Doubt That Women Are Better Cops, Drivers, Gamblers, Spies, World Leaders, Beer Tasters, Hedge Fund Managers, And Just About Everything Else

Synopsis

Ladies and gentlemen of the jury, everyone is familiar with the tired clichÃ©s: women are bad drivers and are not good with money; only guys play video games and they give bad directions. Dan Abrams tackles the toughest case of his career in *Man Down*. Drawing on years of legal experience and research studies, Abrams explains step-by-step why women are better than men in just about every way imaginable, from managing money to flying planes to living longer. Abrams uses his trademark charm to get his point across without opining on the issue himself. Chock-full of fun facts and conversation starters, this book may not end the debate of men versus women, but it will definitely make it more interesting. Praise for *Man Down*: "a provocative collection of bite-size pro-women essays" - *Wall Street Journal* "compelling, controversial" - *Glamour* "I've always liked Dan Abrams. And now that he's charmingly admitted what we all knew anyway, I like him even more!" - *Liz Smith*

Customer Reviews

"[Abrams] reads every sentence with a bombastic punch and in lawyerly fashion ends the audiobook with a closing argument." - *AudioFile* "Abrams himself reads this short, entertaining book in a tone that, like *Man Down*, doesn't take itself too seriously. Recommended for public libraries." - *Library Journal* --This text refers to an out of print or unavailable edition of this title.

Dan Abrams has published articles in the *New York Times*, the *Wall Street Journal*, *Newsweek*,

the American Lawyer, and the Yale Law and Policy Review, among many others. He has also written for online media such as the Huffington Post, the Daily Beast, and, of course, regularly for Mediaite. He is also the legal columnist for Men's Health magazine. Dan Abrams is the legal analyst for Good Morning America and ABC News, as well as the founder of the Abrams Media Network. Abrams, a Columbia University School of Law grad, was previously chief legal analyst for NBC News. He was general manager of MSNBC during which time ratings grew by 62 percent and he branded the network "The Place for Politics." Prior to his management appointment, Abrams hosted The Abrams Report, a nightly legal affairs program, and later Verdict with Dan Abrams. In the past two years the Abrams Media Network has launched media news site Mediaite.com, fashion and style site Styleite.com, Geekosystem.com for tech lovers and TheMarySue.com for their female counterparts and Sportsgrid.com. He is also the cofounder of Gossipcop.com, the first major website to police the gossip industry for inaccuracies in reporting. Dan has never been married, so despite his admiration for women, evidenced by this book, that does not mean he necessarily knows how to talk to them. Follow Dan on Twitter : @DanielAbrams

I heard about this author on the IQ2 podcast, and as a woman, I like the argument! However, it is written by a lawyer and he uses lawyer-like arguments. I found myself shaking my head sometimes... Decent read to expand your world view.

This was an interesting read. I am looking for a book for my womens book club to read. The independent women of the group should find much to discuss after reading Mr Abrams` arguments. Although this was a short book, I found myself wishing it was shorter. Possibly combining some chapters would have helped. Updated. Did not recommend for book club. Too much repetition of points. Those independent thinkers would have been bored before completing.

Funny, easy little book. At this point, a little dated. All the studies were done several yrs. ago. Great little book, though!

I gave a copy to my son's girlfriend and I have a copy so we compare notes...Even after being married 47 years I learned a lot

Great gift for know it all men.

This book is so humorous in a eye opening way. I loved it. It was a page turner because I found myself wanting to see what his next perspective was on the next subject. It was a good read.

I've always been a Dan Abrams fan and now I know why. This book confirmed my suspicions all along. Strong women don't need affirmation, but this book is just fun. I passed it on to a friend who also enjoyed it.

this is a beginner's lesson in women's studies. Dan Abrams did his research, and came up with areas where women are superior. It does debunk all the myths about men.
