Customer Reviews

This book mostly explains all the enemies and items in a Mario game, so it'll help me with other

Mario games as well. Took off one star because of the tons of typos and inconsistencies and incorrect use of punctuation. Glad I only bought the Kindle choice because it's a quick read.

amazing!!! it was a good purchase

The same day I bought this book, I got Super Mario Maker for my Wii U. It was awesome. If your child is looking for a good review, might as well choose this one. For one, it started with basics. Not every book like this starts with basics. Right there is one star. Second reason I love it is because it shows pictures. That's awesome at least for me because things need to be specific. That throws in another star. One more reason, it plainly shows and tells what you should do. I LOVED IT!!!!!!!!!!!!

What more can I say then it fulfills what it advertises. My son wanted this book and it helped clarify not just minor portions of the game, but a lot of the more of the challenging concepts too.

I have no idea what I'm saying but I need you to hit a dab for me ok thx bro so dab dab dab dab dab dab my homies
