Tanks And Armored Vehicles, Dover Coloring Book

Synopsis

A highly developed form of protected, mobile striking power, tanks are the successors to war chariots and armored elephants used by armies of ancient times. Designed to be used as part of large infantry units (as in World Wars I and II), or as a separate striking force (as in the Gulf War of 1991), the modern tank is a formidable weapon of war. This comprehensive coloring book of 44 accurately rendered illustrations chronicles the development of tanks and other armored vehicles from the "Little Willie" (1915) to the British Challenger 2 main battle tank (MBT) (1994). Also included are these vehicles: Rolls Royce Armored Scout Car (1916); British Mark A Whippet (1917); Japanese Type 95 (1935); French Char B1 (1937); British A12 Matilda (1940); German Panzer III (1940); Russian T-34 (1940); American M4 Sherman (1942); American M26 Pershing (1945); Russian T-72 MBT (1973); American M113 Armored Personnel Carrier (1961); Israeli Merkava MBT (1980); and 30 more. Detailed informative captions accompany each illustration in a book sure to be enjoyed by military buffs and colorists alike.

Book Information

Paperback: 48 pages

Publisher: Dover Publications; Clr Csm edition (June 19, 2013)

Language: English

Customer Reviews

An award-winning artist, writer, and graphic designer, Bruce LaFontaine specializes in books about history, science, transportation, and architecture. Bruce has written and illustrated 70 Dover titles, and his work has appeared in Scientific American, The Wall Street Journal, and other prominent

publications.

My mom and I got this coloring book for my uncle who just had a liver transplant. He is home with not much to do, and is a huge history guy. He likes this coloring book a lot. We got him a few war-related coloring books, and this is his favorite. He plans to share it with his grandson.

Great Quality. Paper is white and sturdy - doesn't bleed through with markers, colored pencils or crayons - unlike most coloring books purchased in retail stores. Pictures are authentic Tanks and planes and fun to color. Our grandson loves Planes and Tanks, so these coloring books provide hours of enjoyment for him.

I love this because my husband is putting together a tank and has another one on waiting. This coloring book has both of those tanks. I intent to color them to match the tanks and frame them for him.

I like the clean images. This is ideal for kids and grown-ups. Dover always does a nice job. Outstanding images for the amateur and the serious researcher. Great for schools. I gave it five stars because of it's clarity of images and it's usability of the illustrations. Dover has yet not to find me not giving their books five stars and each star is well served.

The information and pictures, superb. Have yet to tackle it (too many other books, so little time).

My son really likes it. He is very much into military stuff. The pictures are nice. I like that the pages are a heavier weight paper so you can use markers on it and it won't bleed through.

I bought this for my grandson and he is enjoying it very much. The information on the tanks and armored vehicles is easy for him to understand.

Amazing tank pictures & the paper seems of good quality.. My 13 year old is a tank fanatic & he is going to love it!
