If you play Call of Cthulhu, you cannot go wrong by using these sourcebooks. Lots of info about 1920's London, lot's of mythos inspired adventure hooks, great maps.

Beautifully printed on good-quality paper, with great thick, plastic coated maps and lovely full-colour antiqued handouts. It is a sandbox for your anything your players want to do in London. I used it to

breathe life into the city for my campaign of Horror on the Orient Express, which starts there. It's great having a guide to London to give the players; it helps them decide what places in London to see. It has maps of the countryside near London, a London city map... so it really takes care of the South of England. The Keeper's book has plenty of characters in it for your players to interact with. I haven't run any of the adventures.
