Customer Reviews

Pamela Fierro (Virginia Beach, VA) is a parenting writer, blogger, and mother of identical twin girls. She has served as the Guide to Parenting Twins and Multiples at About.com for more than ten years, where she dispenses information and advice to thousands of readers each week. Pamela's articles have been published in print publications such as Twins Magazine and she has been featured as a multiple birth expert for CNN, ABC News, the New York Times, and other news

outlets.

my daughter's triplets are now 10 months so I was really looking for helpful hints, tips to use now. book primarily deals with before the birth not after so I was disappointed in the content, but perhaps that was my fault as the title does not suggest anything beyond delivery, which is when you could really use some (a lot) of help.

It was a good read. Not sure what I was expecting from this book but should be helpful for my daughter that just found out she is expecting triplets in the fall.

This book is very helpful indeed. Every pregnant woman who is expecting twins should read this book. I recommend it. :)

This book is very easy to read and very informative. Had a lot of tips and ideas on raising multiples.

It is an awesome book. I have a toddlers and I am expecting twins and this book is very useful. I really recommend it

This is a MUST for a new mother of multiples. It provided me with some really great ideas on how to raise my triplets with a sane mind. I bought this while I was pregnant and read it while I was on hospital bed rest for 6 weeks. I would highly recommend this book to a new multiples mom or father.

The book is well written and easy to follow. I think it is more useful to read before babies arrive.
