Customer Reviews

For anyone preparing for college must have.....get this and move onward and forward toward scholarship consideration.

It helped.

My expectations were met

Love it.

Kindle edition not good. The kindle pages are too small for workbooks and textbooks. It is like looking at the clouds in the sky with binoculars. Hard to see the whole picture.

I should have purchased the regular paper book. Unlike most books, this product is harder to use in the iPad or Kindle format.

This is always a good preparation resource for the PSAT. Beware however, not to use ONLY this for the PSAT. It's always a good idea to prepare with SAT questions too, because the SAT challenges students with harder questions than are on the PSAT, so your score will be much higher. This is a good resource for practicing actual PSAT questions only.

It is recommended from a experienced teacher, so obviously it is useful for college pre prep, and also for SHSAT prep.
