Customer Reviews

Well-known TV personality Bob Warden has proven taste and sizzling passion for great food as a television cooking celebrity, kitchenware developer, and cookbook author. He is a hugely successful TV cooking show host, product developer, and QVC manufacturers representative, with four decades of experience. Bob has helped develop more than 500 kitchen products for QVC, as well as for other top brand kitchen manufacturers.

I love my Nija having originally used it only for the things I had seen demonstrated on QVC. I have been a fan of Bob Warden and his easy-to-follow style for years so I was anxious to do more. The book came out, then sold out so I had to wait. But what worth-while, worth-the-wait purchase to make! As with Bob's style the book does the following:- Cover every type of food service you want: breakfast to meal to dessert- Give a shopping list for every recipe- Show a photo for just about every recipe- Never use hard to find products- Keep it simple whether it be mixing or cooking.- Make is great to eat and serve- Presented in a quality book on quality paper to resist spillsThank you Bob for another winner AND for offering it at a price we cannot afford to pass up!You make me a hero in

my own home!

I love my Ninja Mega Kitchen System and this is the perfect book to help me get more creative. Besides making the best smoothies, now I am making meatloaf, crepes, dough, homemade sausage, etc... with my Ninja. Well written and easy to follow.

I like the recipes in the book, but my favorite part of the book is the techniques and instructions on how to use my Ninja. It sparks your imagination.

If you have a Ninja and forgot all those ideas in that infomercial - or in it's store presentation you observed, this book will offer you lots of inventive and helpful ideas to incorporate this appliance into your life and your kitchen.

Well...all I can say is that for me anyway, these type of books have been sadly lacking. I have found so many better recipes online that I can't recommend this book either. I have tried many of these 'recipe' books, but just not impressed with the recipes in most cases. Might be ok for the beginner?

Fabulous cookbook. I have a mega Ninja kitchen and this book seems to be designed for that. Very helpful for that reason. I would recommend it to anyone with the mega kitchen setup with the blender/food processor/etc. Love this product. The cookbook helps me get the most out of it.

Something I needed since I received a Ninja for Christmas. Found several good recipes and it has become one of my 'go to' books.

Many different and delicious foods and drinks are in this book. These aren't complicated at all to make. It's like a helping hand at bringing new versions of old recipes and new ideas to mind. Thank you.
