Spawn Coloring Book

Synopsis

Coloring books are not just for the little ones anymore! From fan favorite, TODD McFARLANE, comes the FIRST EVER SPAWN coloring book. Todd is known for his hyper-detailed line work and now YOU are in the position of comic book colorist, designing a color scheme for some of SPAWN's most memorable pages. This book is for SPAWN AND comic book fans alike. Be part of the SPAWN legacy!

Customer Reviews

I'm somewhat new to the adult coloring world but I have purchased several books in the past several months ranging from Marvels Civil War and Deadpool to DCs Batman Hush. I can honestly say that the Spawn Coloring book takes the best part of those items and puts it into one. First off the pages can be removed from the book itself where in the DC books so far you are unable to do so without tearing or cutting the pages out yourself. The images in the the Spawn Coloring book are amazingly detailed and fun to color where Marvels coloring pages don't have a lot of detail and some of the drawings fall flat to where you don't even feel like wasting your time. Currently I'm using The Prismacolor 132 piece pencil set which is perfect for this item as I have all the colors I need to make Spawn pop off the page. Not only that but their soft lead allows my pencils to last a lot longer and give me the color I really want. All in all, I love this book and I know it's going to give me hours of enjoyment. As a kid I really enjoyed coloring and now as an adult it's stress relieving and fun to sit and color with my kids. The pages them self are pure white so you can identify the detail and areas

you need to color. The pictures are highly detailed and taken from the Spawn comics. The art that Todd McFarlane and Greg Capullo put together for this series is unbelievable and for the most part why Spawn became such an iconic image character. Pick this up for yourself or a friend that enjoys Spawn and they will not be disappointed.

Really nice. It's all McFarlane work so don't expect any Capullo or Medina pieces. There are a few pages of fluffy throwaway patterns in there that some may like, but they aren't my thing. I like just the uncolored comic art. This book is also a great source for seeing uncolored inks.

I have been a fan of Spawn since the early 90's, some kids liked Spiderman or Batman, I was a Spawn kid! The book is filled with very good looking and highly detailed drawings, although as stated in other reviews, a bit too much black ink shaded areas in a lot of the pages. Feels like they played it too safe and doesn't allow you to fully customize the coloring. One thing that really bothered me is the lack of variety in the pages, NO CLOWN in the entire book, which really sucks! If I wasn't such a long time fan, I would have given it 3 STARS. Not expensive so it's worth a buy for fans.

Got it for my dad who loves Spawn. He really liked it. Great product.

Hours of coloring

This is my first adult coloring book and I must say I really enjoy some of the details you can put into it. There are some classic Spawn drawings that are really complex that make you appreciate the work an artist like Todd McFarlane does. I would say this is probably one of the harder books I looked into, but if you're a Spawn fan it's a must have.

I thought it was the full comic, but it was not. They were only random pictures, it was nice though.

It was ok, There was too much black from the drawings which made it hard to add color. The book it seems was drawn like a comic book rather than a coloring book.
