## Customer Reviews

My child finds this book hard to use. He looks up the word how he thinks it will be spelled and many of the times the way he has misspelled it isn't listed in the book. There are 3 columns on a page (too many) and the last column is squished which makes it difficult to read. It isn't setup like a dictionary where the first word and last word are listed at the top of the page so the reader knows how to quickly find page the word is on.

I find that there are words in this book that are not on my computer "spell check". I wonder what I did before this piece of reference became part of my library.
