Ralph Masiello's Dinosaur Drawing Book

Synopsis

Dinosaurs roamed the earth 65 million years ago. Now you can bring them back to life in your drawings. Illustrator Ralph Masiello shows you how to draw all things dinosaur, from hatching dinosaur eggs to the mighty Tyrannosaurus Rex. Just follow the steps shown in red to create your own Jurassic world. With a few simple lines, you can draw a stegosaurus from head to spiky tail. Then you can add ferns and other prehistoric plants for it to eat. Bonus challenge steps show you how to make your drawings even more realistic.

Ralph Masiello has illustrated many books, including THE ICKY BUG COUNTING BOOK, THE FLAGE WE LOVE, and his popular drawing series. He lives near Boston.

It made our dinosaur artist very happy. It was exactly as described and in very good new condition

I got this for my 6 year old grandson and he loves it. It shows him step by step how to draw and he spends hours with this!

This was a great "beginners drawing" book for kids. My daughter loves it. I would recommend this to

any parent who has a child that loves to draw. This will keep them busy for hours. Thank you!

Great book and specific instructions on how to draw dinosaurs! My granddaughter loved it!

Great book for learning how to draw Dinos. My daughter loves it!

My interest in learning to draw was piqued recently. provided the best resource for instruction books at the most reasonable costs. Now I can learn, and still afford to pay the rent. Ralph Masiello's books are a particular favorite. His step-by-step, line-by-line instructions are remarkable for those of us who are impatient to create a drawing right away. The dinosaur book is for my kid nephew. His books on ocean creatures and dragons are mine. Now that I've learned to create these images in my own hand, they translate to any format a crafter can imagine -- not just pencil or paint, but embroidery and mixed media art. Kudos to Ralph!

My son loves to draw and these step by step books on topics/pics he loves like bugs, ocean creatures, dino's, and the new one coming in June-Dragons are just what he needed to keep his attention for hours on end. Make sure you invest in a box of paper....you'll need it!!!

I purchased this for my 8 year old daughter who loves dinosaurs and is always drawing them. The step-by-step instructions and illustrations made it very easy for her to follow and imitate. She was very happy with the end results of her drawing. She especially likes that her drawings now look more realistic.
