Customer Reviews

Excellent Book.

Excellent beginner book for older children & teens!

I played piano for 6 years as a kid and want to pick it up again as an adult. This book fits my needs perfectly. It covers reading notes, understanding timing, chords, and other music theory. The songs give you appropriate practice for each new concept presented. And the Piano Adventures Player app for iPads and iPhones is terrific! (I think it's available for Android as well, but I haven't tried it.) It includes a series of videos that accompany the material in the book. It's like having private piano lessons!

My piano teacher recommended this book since I am an adult. I had no previous piano experience and the last time I read music for guitar was when I was a teenager. I am enjoying following the

lessons and find it easy to understand with just enough challenge.

basic book for study play piano.

The Faber Accelerated books for Older learners are wonderful. The pace is fast enough to be interesting for someone like me, who listens to a lot of classical and jazz music. The song selections are pretty, sometimes even beautiful -- rare in a book for beginners.

Liked

The Fabers provide a thorough yet gentle foundation for the aspiring pianist.
