Tarina Tarantino founded her global jewelry and accessories brand with her husband and business partner, Alfonso Campos, in 1995. Today, she has storefronts in L.A. and Milan, with plans to open more. Her jewelry, accessories, and cosmetics are sold in over 2,000 retailers worldwide. Tarina lives in Los Angeles, California.

I really enjoyed this book! Great pictures and inspiration! Lots of beautiful jewelry and sparkles!!!

Fun book!

Tarantino doesn't disappoint with this book! The book, which I got in soft cover and not for my iPad, is so user friendly with its photos. Which is why I wanted the actual book. It has many projects with step by step instructions and even a source guide, thank god! She tells you where to get the supplies. If you are doing hair accessories as I am, I have discovered a great online supply shop not mentioned in the book. It's called hair-hardware.com funny enough. They have it all. Anyway from rings to necklaces and even the hair stuff this book is sure to spark your imagination!

I am not naturally "crafty" but since I am a huge fan of Tarina Tarantino, I had to buy it. I was really impressed with how clearly the book outlines the steps for each project in an easy to follow way and has the most stunning, bright and colorful pictures to go along with it. Most of all the book really inspires one to become more creative with their accessories! I have just finished my second project and can't wait for more! I have already bought a few and plan on giving them as gifts throughout the year...

Not a whole lot of how to, but some really great inspirational ideas and terrific photos.

I can't even say enough about how much this book has improved my art form. I own a small business of making hair accessories and jewelry and this has upped my game massively. If I was only basing this on inspiration-factor inside the book alone I'd give it 5 stars, but everything is very clean and clear as far as directions and photography goes inside the book as well. Totally amazing, can't stop making things!

Great book so many beautiful jewelry! Love it

This is such a clever book. I thought my girlfriend and I were clever until I saw how clever this woman is. Even if you don't want to copy with her instructions it inspires you to try other things with sculpey, beads, old jewelry, etc... Great price. It is paperback but more of a collectors type of paperback as it is larger and much glossier. Photos are excellent. Remarkable!!
