## Customer Reviews

I thought chalk painting would be a challenge. I'd admired several pieces others had completed; I thought it would be too much work for me. I can't wait to use the tips and techniques in this book to tackle my first chalk paint project. As a teacher furnishing a classroom on a shoe-string... upcycling furniture and frames is a great option for me! I like the way the book is written to walk me through every step of the process!

Easy to understand. This book tells me everything I need to know to successfully upcycle some

furniture.

I really enjoy crafting, but I have never worked with chalk paint. Upon finding this book and reading through it I have decided that chalk paint is something I need to give a try in my home. I can't wait to continue to reference Robyn's book as I tackle some DIY projects.

I have always loved how chalk paint looks but have never had the courage to try myself. This book was just what I needed! The pictures made the steps very easy to follow and my piece turned out better than expected!

This was a much needed find! I don't consider myself very artistic at ALL but what's great about this is that Robyn did such an awesome job at taking me step-by-step. And I found out that chalk paint is so easy to work with too!

I loved this book. It was an easy read and made me a believer. I'm a non-artist, but after reading the 10 easy steps and seeing the process, I feel confident I can chalk paint. I especially loved the before and after photos!

Although I do not consider myself to have many artistic abilities, I really enjoyed reading this book and look forward to chalk painting by following the 10 easy steps.
