Back In The Days

Synopsis

Back in the Days documents the emerging Hip Hop scene from 1980-1989—before it became what is today's multi-million-dollar multinational industry. Back in the days, gangs would battle not with guns, but by breakdancing. Back in the days, the streets—not corporate planning—set the standards for style. Back in the days, Jamel Shabazz was on the scene, photographing everyday people hangin' in Harlem, kickin' it in Queens, and cold chillin' in Brooklyn. Street styling with an attitude not seen in fashion for another twenty years to come, Shabazz's subjects strike poses that put supermodels to shame—showing off Kangol caps and Gazelle glasses, shell-top Adidas and suede Pumas with fat laces, shearling coats and leather jackets, gold rope chains, door-knocker earrings, name belts, boom boxes, and other designer finery. For anyone who wants to know what "keepin' it real" means, Back in the Days is the book of your dreams.

Shabazz's photographs celebrate the "cool" style of early hip-hop culture between 1980 and 1989. Though his work is firmly rooted in the tradition of urban street photography, Shabazz here shows his subjects striking a pose and staring straight into the camera. The resulting images become less documentary and more yearbook-like in style. At first viewing, the clothes and posturing seem almost ridiculous, until we remember the excesses of the 1980s. By comparing the styles and attitudes of this bygone era to contemporary hip-hop culture, Ernie Paniccioli's essay places Shabazz's photos within a historical and social context. He points out that like all fresh and honest

trends, the hip-hop style has become sadly commodified and more concerned with status than substance. But in the early era presented here, the focus was never style for style's sake it was about rebellion and survival. Shabazz, who has published his photos in the Source, Vibe, and other magazines, documents his "passion for photography and his love for his people" while raising important issues of racial justice and equality. Free self-expression is communicated through hair, clothing, shoes, jewelry, and, most importantly, posturing. An important examination of urban and youth culture through colorful photographs, this is recommended for all public and academic libraries.
