Brandon Mull is the author of the New York Times, USA TODAY, and Wall Street Journal bestselling *Beyonders* and *Fablehaven* series, as well as the bestselling *Five Kingdoms*, *Candy Shop Wars*, and *Dragonwatch* series. He resides in Utah, in a happy little valley near the mouth of a canyon with his wife and four children. Brandon's greatest regret is that he has but one life to give for Gondor. Brandon Dorman is the illustrator of *Be Glad Your Nose is on Your Face* and *The Wizard*, both by Jack Prelutsky; and *The Christmas Sweater* by Glenn Beck. He received a degree in fine arts from Brigham Young University in Idaho and lives in Puyallup, Washington, with his family.

The first book starts off a bit slow, but by the middle of the book you are hooked. By book Five you are totally blown away. Very well written, you actually care for the characters, and the books are full

of laugh out loud humor. The storyline is excellent and I like how each book is a self contained story with an overlapping overall mission/quest. Brandon Mull is an engaging writer and the books seem to move along at a rapid pace, but full of little details that make reading very enjoyable. All five books are excellent in the series. The mythical creatures really come to life again in these pages, from the arrogant Centaurs to the fearsome and magical Dragons. He takes care not to overstretch as rule and you will find many creatures that inhabit "Fablehaven," both good and bad. The books are highly original and are full of great surprises. Highly recommend.

My 4th grade son has been a bit of a reluctant reader. But he started going with the "Underland Chronicles" and then really took off with this series. My other sons (4th and 6th grade) keep stealing them from him to read too. Bought the next series by this author and they're charging ahead on that too.

Bought this box set after my daughter obsessively read the first two books in the series over the summer. Beautiful cover art, my only complaint is that the actual box the books came in was a bit flimsy. Definitely a great price for these books though.

I read this series in print some years ago and along the way have introduced many fans to it. I knew I had to reread them so I purchased them in ebook form and have to say they're even better than I remember. Such an amazing series!

One of the best book series I have ever read. I read them all within a month. If you enjoy fantasy like Harry Potter, you will love these books. The author writes magnificently and the story captures every emotion. I highly recommend this series.

I am not a teen, or young adult, but I thoroughly enjoyed Fablehaven! I kept thinking I had figured out how the story would unfold, only to find out I was wrong. I loved that it was unpredictable! I will read this again, and recommend it to anyone who likes fantasy stories! I'm so glad that it is a clean read! I won't read books that have bad language and immorality in them!

Let me start by saying that I was never a big fan of reading. I think I could have counted all the books I've read cover to cover on one hand. That was until I started reading Fablehaven by Brandon Mull. I'm a fan of the fantasy world and in the Fablehaven series, Brandon Mull brings

everything you could think of from that genre from dragons to wizards to fairies. Mull does an excellent job throughout the series with character development. While ever growing and changing they still remain the characters you knew and enjoyed from the beginning. Mull also does an amazing job at something that most books haven't been able to do for me. He makes you feel like you are actually there witnessing the events of this great series as they unfold. Page by page you feel the suspense building as the unknown creeps closer. Brandon Mull truly did earn the award of New York Times Best Seller with this series. By the end of the series I felt as though the journey was complete but at the same time, I wished it wasn't. I hope that at some point in the future, Brandon Mull does decide to revisit the characters and events that took place throughout this series. I honestly believe that anyone, from the young to the old, avid reader to occasional skimmer could enjoy this magnificent creation from the mind of Brandon Mull.

My 8 year old daughter Loved this series. Some violence and much supernatural content including talking with demons, but bad was bad and good was good. Female and male kid leads so good for both genders
