"So, what's my verdict on Earworms language lessons? As the Dutch say, 'heel goed!' (Very good!)" --Wired, praise for the series

Earworms MBT is an accelerated learning technique that takes a new and innovative approach to language learning. Based on the science behind catchy songs that become stuck in one's head (the auditory cortex), Earworms works by pairing melodic music with soft-spoken foreign words, phrases, and their translations. The result is an incredibly effective method for learning conversational foreign languages by simply listening. Marlon Lodge, the founder codirector of Earworms Learning, is an author, linguist, and language trainer of many years' experience. He lives and works in Düsseldorf.

It is very easy to use and I'm learning Italian in a short amount of time. The PDF file enhancement so I can see the words and phrases as I listen to them is very helpful. I only wish it came on a thumb drive because my computer at work no longer has a CD drive. I would have to purchase a portable CD drive in order to listen to it at work during my lunch and breaks.

Love it! Easy to listen to and I find myself knowing what's coming after I've listened a few times....
