Monster Hunter: Flash Hunter, Vol. 3

Synopsis

Having accomplished tough missions and gained new skills, Raiga accepts a request from a mysterious old man to investigate some strange occurrences in Pokke Village. When Raiga and his party arrive at the village, someone is waiting for him—the very Hunter who inspired him to become a Hunter himself.

Customer Reviews

Note: my opinion so yeah this manga right here as far as i know is actually the manga of a light novel for monster hunter and i believe the light novel is not available in america yet. Here is what i get and why i think this deserves a 5 star rating no its not perfect but nothing is perfect. This manga deserves the rating i gave because unlike the monster Hunter Orage which was done by the creator of fairy tail, this manga tells you how this characters villagers and hunter live like and what struggles they because of living in a world filled with rathians and tigrexs but the monsters are not evil and only harmful when provoked, this a interesting thing that you didnt really see in Orage. the main cast is filled with the hothead raiga the cool headed keres and the smart scholar hunter torche. At first

this three look like every other stereo type character but as the series goes on they start changing and understanding why each of them hunt and how they all develop their friendship and team work. Also the other hunters from the previous volume return and we get to see them more this time. This manga is mostly for the people who played the games and enjoys them and always wanted to know what would monster hunter be like with a story and also filled with action when its needed.

Volume 3 of Monster Hunter Flash Hunter is a heavliy character driven volume. Raiga finally meets with his old mentor Bexel within the first few pages but something is definitely off about Bexel. Where as we finally get to know more about Keres, which in all honesty surprised me quite a bit. The artwork for this volume is top notch especially the monsters and makes me want some of them as art to hang up. The series has turned out to be an enjoyable shonen series.

It made me on the edge of my seat when Raiga saw his hero different from back when he was a kid.

It is one of the best if not the best Monster Hunter book series out there

She loves it

Another battle oriented shonen that I'm really enjoying. The three main characters have lots of personality and are fun together. We learn of Keres background and why he became a hunter. Meanwhile, Raiga finally meets up with Bexel from his past and things do not go the way he had expected at all. Otherwise tons of battle action. I don't play the game but I imagine those who do will really enjoy this series.
