## **Customer Reviews**

Got this item for my 3 year old faster than expected. She loves the book but the "movie" projector is hard for my little one to switch out the little discs on her own. Overall it's good but would recommend it for little ones slightly older.

Our daughter really enjoyed switching the discs and shining the pictures as we read the story. I do wish the light was a bit brighter, as the room had to be darker than normal to see the pictures brightly. Overall, I'd recommend the book!

My 4 year old loved this book, really enjoyed mini projector.

The projector is a little tricky. There is a focus lense at the end which is not immediately evident, but required to ensure the picture is not completely blurred. Once you focus the lense the pictures are clear. The book itself is fine - 28 pages with lots of illustrations as well as a short story.
