Customer Reviews

Drawing is always something that requires an artistic hand and mind. However, anyone interested in learning to draw especially the manga style drawing must get this book. It is a perfect guide which helps you get through the learning process without a hassle. The book is easy and clear to understand and step by step basic lessons help learning quickly.

Good but get this guy needs an editor. He is an excellent artist but not much of a writer. I can understand what he's saying but there are enough grammatical errors to make it distracting to read. He just needs to revise the book with the help of a good editor and it would be probably one of the best How to Draw Manga books on the market in my opinion. He goes into specifics that other How to Draw Manga authors such as Christopher Hart and Mark Crilley do not. Such as how to draw faces looking in different directions. Overall a good book. Just needs a good revision to fix the grammatical errors.

I really find this book as a very great one! I have always dreamt to learn on how to draw and this book from . This book do provides a lot of tips and advices on how to draw for the beginners and what I love about this book is its tips are very easy to follow and yet you can see a very big improvement on your drawing skills.

Great instructional book. Easy to follow for a child.

I read this book and now I'm almost a professional. It teaches almost everything.

really liked this book as someone who draws but didn't have a hand on anime type characters, it made it easy to read and follow plus learn

I liked it, very helpful!

This is only good if your as green as it gets, i guess I should be more careful when purchasing my books
