Cute little book about a family. Toddler loves moving the bird while I read.

This is such a cute read for your toddler. The book is also very cute it self especially with the finger puppet. Magen I purchased the book on here I did not realize that it had a finger puppet and did not see that in the description if the book! My 2 year old love for us to read her the story and she likes to use the finger puppet as we are reading it to her! Children will get a consent of how birds live and all while having fun with reading it! I definitely recommend this book to everyone. And the fact that this

book is a cardboard heavy duty book it is not only practical to purchase cardboard books for young ones, but they last over time without the ugly indents or accidental page folds!A great buy for such a great price!

I purchased both In My Nest and In My Pond for my 18-month old nephew. He LOVES them. This is a unique presentation for a children's book and a good way to introduce them to nature. The illustrations are beautiful and are cleverly revealed from page-to-page, and the finger puppet makes the bird and fish come alive while you're reading the stories. I highly recommend them.

so simple, cute and beautiful. really pretty, vibrant illustrations and a simple message make this book one of our new favorites. clever concept. my children love that the birdie moves, and it's very simple for the parent to manipulate. seems like high quality construction, that will hold up to years of wear. i'm purchasing others like it.

I gave this book to my 2 1/2 year old grand daughter. She adored it! She has many books and I especially enjoyed finding this one as the make of it is unusual. It made her laugh and she asked me to read it again and again!

We bought this book for my daughter last year for Christmas. We have read the book almost every day for a year and it still looks great! It has very sturdy construction. The book is short and sweet with a nice flow to it, perfect for toddlers.

These books are a go to shower gift. My kids love them and they are super cute and sweet gift!

Such a cute book!
