Zendoodle: 33 Zendoodle Patterns To Inspire Your Inner Artist--Even If You Think You're Not One! (Zendoodle Mastery Series)

Synopsis

Have You Seen Zendoodle Works Of Art And Been Inspired To Create Your Own? But Don't Even Know Where To Start? Maybe you're not even sure what Zendoodle is, or simply don't feel like you're qualified to be an artist. If any of these scenarios apply to you, then my Zendoodle Mastery Series is the answer you've been looking for! >> Volume 3 includes 33 brand new patterns that I haven't released previously.

Customer Reviews

I have purchased a few books on zentangle because not only did I want to know what it was about, but also to see if it could help me to relax and help with my tremors. Thus far this one has been the best at being instructional. I'm not an artist by any means but it gives me a starting point for practicing certain strokes and attempting to gain better control of my pencil. I purchased this book at a sale price and intend to buy the other editions soon.

I have recently discovered the beauty of Zentangle and have bought several books on the topic.

This series is one of the best values on the subject that I've found. The author provides a little background on Zentangle, but my favorite part is the pattern section that includes easy to follow instructions. I also loved the free gift of additional patterns and borders. I bought another in the series right away and was not disappointed.

This is the poorest zendoodle book I have seen. Basic designs, the same instructions as in the first. I did not learn a thing.

This book is once again another wonderful guide for anyone wanting to do these Zendoodles. And a great starting place for further projects of this type.

Nice book with easy to follow pattern illustration. Also appreciated the bonus. But the nicest part of the whole purchase was when the author followed-up with me to see if I was enjoying her book - which I am. Thank you Olivia.

Every time I look through this book I get creative energy and start to draw on my own. Thanks, Olivia, for the positive vibes

my first zentangle book, I bought all 3 and am enjoying the easiness and good directions of these books. .

This is a very simple book. I expected more intricate designs. It's just not what I needed but my 10 year old granddaughter might like it. Also I would like to see a back cover or a page containing all the finished designs together.
