30 Days To A More Powerful Vocabulary: The 500 Words You Need To Know To Transform Your Vocabulary...and Your Life

Synopsis

Words. They're the foundation of nearly everything of value in our world. They have the power to create, and the power to destroy. The power to inspire and to terrify. The power to enlighten, and also to obscure. And, more specifically for you, they have the power to attract wealth and success, and guarantee your brighter future. This is not hyperbole -- it is based on rock solid research. Studies show that those people with large vocabularies are smarter, wealthier and happier than the average person -- and substantially so. And here's the best news of all, a large vocabulary is not tied to your social status, your genes or even your education level. It is a skill that can be learned -- and it takes only 30 days. In this cutting-edge program, 30 Days To a More Powerful Vocabulary, personal development expert and English enthusiast, Dan Strutzel, will instruct, enlighten and inspire you with a concentrated 30-day program that will teach you over 500 words. But, more than teaching you these words, the uniquely designed morning and evening review sessions will ensure that these words become a habit-knit part of your life -- and with minimal effort on your part. Best of all, research shows that learning new words has an exponential effect on the size of your vocabulary -- since learning one word, naturally produces an association between two to three more words. In short, after listening to and applying the system in this 30-day program, you will not only have a bigger vocabulary -- you will have a brighter future! Here's just a sampling of what you'll learn: The ten myths about building a dynamic vocabulary. The secret behind the exponential effect of vocabulary building. A 30-day program designed to maximize learning and comprehension of over 500 words. The words you need to know about money and financial issues. The words you need to know about persuading others. The words you need to know about marriage, parenting and other relationships. The words you need to know about science. The words you need to know to be a great conversationalist. Why building a large, dynamic vocabulary is even more valuable in the digital age. And much more!

Dan Strutzel is currently the President of Inspire Productions, the former Executive VP of Publishing at Nightingale-Conant Corporation, and a 25-year veteran of the personal development industry. Dan has published some of the most successful audio programs in history, and he has worked "up close and personal" with several hundred personal development authors and speakers -- some of the most gifted communicators in the world. These authors and speakers include: Tony Robbins, Brian Tracy, Jim Rohn, Denis Waitley, Marianne Williamson, Harvey Mackay, Deepak Chopra, Robert Kiyosaki, Wayne Dyer and the late Zig Ziglar. Dan had a unique opportunity to study their communication habits, and, as a person with a great vocabulary and ability to communicate himself, he was responsible for making those top communicators even better. Dan was also the host of Nightingale-Conant's monthly audio magazine, Insight, and has had his own unique ideas on personal development published in Success Magazine and Nightingale-Conant's AdvantEdge E-Newsletter. A graduate of The University of Notre Dame, with a B.A. in English, Dan is uniquely qualified to "inspire" you to build a rich and dynamic vocabulary of your own.

Don't waste your money on this book. The title is deceptive since it borrows its title from a previous best-seller by another author. A quick look at the Kindle edition reveals that this book is not much more convenient than a paperback book. It has no exercises, just a list of words with "artificial categories." Not a difficult book to write, very few interesting insights. You would be best advised to buy a kindle dictionary or better still, download a free dictionary and thesaurus app, then be on the lookout for words you don't understand and look them up as you read. This book should not be listed on ! Or it should be sold for 20% of the listed price. If it weren't for wasting the time to request a refund, I'd do that...and this much says a lot about my opinion of the book. What one would expect (because this copycat book's original model had them) is multiple tests over each chapter with uses and contexts to reinforce words learned by asking questions about the words as they might be used in context.

Not many new words to be implemented into my personal lexicon. They were done in groups, i.e.

biology.

It is a great book! I like how the narrator on the audio book sounds so great . I'll highly recommend this to anyone who wants to increase their vocabulary.

This book was perfect for my needs. First, it is a relatively fast read, which is great because I can rarely finish books due to my busy schedule. But, this one was well-written, very interesting, short and to the point so I read it twice. Second, I learned a great deal of additional information on how a large vocabulary correlates to so many other factors in life---from happiness to career success to general well-being. The 30-day program was a great way to organize the material---I followed it to the letter, reading and reviewing those words that corresponded to the particular day I was working on. After 30 days, I did feel I had a good handle on all the new words, and then re-read it on a plane ride, just to reinforce it. I'd highly recommend this if you are interested in the topic, want something that you can fit into your schedule, and want to learn a ton of great new ideas.

Utterly useless publication. Just silly.

There is no accompanying word list - Unbelievable!

Words were not useful and its very very slow! made me drowsy.
