National Geographic Big Cats 2017 Wall Calendar

Synopsis

From majestic lions in Kenya to elusive snow leopards in the Himalayas, the big cats of the world need help. Lions, tigers, cheetahs, leopards, jaguars, and other top felines are quickly disappearing - all victims of habitat loss and degradation as well as conflicts with humans. To address this critical situation, the National Geographic Society has launched the Big Cats Initiative, a long-term commitment to stop poaching, save habitats, and sound the call for global action to save big cats in the wild. The Big Cat Initiative is a comprehensive program that supports on-the-ground conservation projects, education, and a global public-awareness campaign. Big Cats 2017 features stunning images of the world's big cats. Each outstanding image is accompanied by insightful National Geographic information and a large grid with moon phases and international holidays. This 12-month includes a 3-year at-a-glance page and is earth friendly, printed with soya-based inks on FSC certified paper.

Customer Reviews

This is a really nice calendar. The pictures are all very high quality with a lot of saturation and contrast to them. The holidays and moon cycles are listed. The daily squares are big enough to write a couple of things down on each day. On the pages under each picture, there is a little educational blurb about the individual cat shown. The first page is a condensed calendar for 2016, 2017, and 2018, all listed side by side. They do note that some of the animals pictured were photographed in captivity. That is the only minus, but whattya gonna do? At least they are honest about it.

The pictures are beautiful and I love big cats. Glad I bought it!

Nice photos of big cats. I love it.

This calendar is absolutely beautiful. The photos are amazing. I'll enjoy looking at these 12 gorgeous big cats for the next 12 months. Can't go wrong with National Geographic photography. I can't wait for 2017 so I can hang this calendar over my desk at work!

Cats are where it's at.
