Travel Shanghai, People's Republic Of China 2012 - Illustrated Travel Guide, Phrasebook, And Maps. (Mobi Travel)

Synopsis

This guide is designed for optimal navigation on eReaders, smartphones, and other mobile electronic devices. It is indexed alphabetically and by category, making it easier to access individual articles. Articles feature information about attractions, landmarks, districts, transportation, cultural venues, dining, history and much more. Addresses, telephones, hours of operation and admissions information are included. The guide is complemented by clearly marked maps that are linked to city attractions. An interlinked phrasebook as well as a pronunciation guide are included. This travel guide also features an itinerary with our suggestions for your travel route. Itineraries include links to individual attraction articles. NEW FEATURE: Most attraction articles now include links to Google Maps. On a dedicated electronic reader with a slow connection and a primitive browser, Google Maps will display the attraction on the map along with metro stations, roads, and nearby attractions. On an internet-enabled device such as the iPhone and the iPad, Google Maps will even show you the route from your current location to the attraction you want to go to. With this travel guide you can turn some eReaders into audio guides. For example, on the Kindle, just open an article and click Shift+SYM to activate text-to-speech. Put the speaker on the back of the Kindle against your ear and enjoy your virtual travel companion. Press Spacebar to pause/resume text-to-speech. All travel guides in the Mobi Travel series are only \$4.99 or less. Search for any title: enter mobi (short for MobileReference) and a keyword; for example: mobi Paris. Customer Reviews

Shanghai is an amazing place but you need to know about the highlights and pitfalls and the secret places. Reading the travellers tips ensured I didn't fall foul of one of the many tourist scams which may be tried out on visitors.

My wife and I are headed on a cruise to the Far East and downloaded this book on to my ipad for easy reference. I really like the format and content.
