How To Examine Life Through One Child: Memoirs From The 2013 Honduras Mission Trip

Synopsis

Dr. Rod Bailey was sent on a once-in-a-lifetime mission trip to Tegucigalpa, Honduras, as part of One Child Matters Program. With some reservations, he enters into a land where driving recklessly on crowded streets is normal, roosters crow from the rusty rooftops and the strong coffee gets no creamer. But, the greater lessons lie in his interaction he has with the proud people, grateful children and the mission he came to serve. Join Dr. Bailey in his five day journey of Tegucigalpa, Honduras, July 2013.

A Mission trip that matters. A delightful happy read of how you can be, do and act upon the real mission of Your Soul. There is a song that says it all.---"If you want more happy than your heart can hold, if you want to stand taller if the truth were told, Take whatever you have and give it away. If you want less lonely and a lot more fun And deep satisfaction when the day is done Take whatever you have and give it away"---If you are having a lousy day, then open to God and go to www.OneChildMatters.org---May All who read this be blessed AND SO IT IS!

This was such a great book to read for anyone with a passion to travel and help people less fortunate. The way the author captured the daily experiences of Rod Bailey's letters made me see how nice people in other countries can be. I'm motivated to see south America and hopefully leave my mark like Mr. Bailey was able to.

I thoroughly enjoyed the plight of the story. The characters really made the story captivating and although the end was abrupt I felt it told the overall story well

What a great book! It really goes through all the stories which truly make you think about what has gone through your life!

Husband is going to Honduras on a Mission trip, enjoyed this book immensely

The title is completely misleading. This is an uninteresting collection of trivial observations during a short mission trip.

What a great testimony of Dr Rod Bailey's mission trip to Honduras. Born and raised in the US, sometimes I take for granted the environment and lifestyle that I am accustomed to. I applaud Dr Bailey's work and determination to help others and make the world a better place. Al banza de Jesus!
