The BirthRight Trilogy Boxed Set: An Epic Fantasy Romance With Kickass Heroines (Books 1-3)

Synopsis

Discover a world you'll never want to leave FREE on Kindle Unlimited! In a candle lit living room four women dabble in the occult, unaware that within each of them lies a power, dormant, waiting. But what seems like a harmless spell bridges the gap between our world and another. A world where myth is reality and sword and sorcery rule. Thrust into this strange new land the four friends soon find themselves caught in the midst of a war between two archaic families; a war in which their unique powers make them the ultimate weapons. Or the ultimate prize! This set gives you three full length novels (approx. 345,000 words), the complete BirthRight Trilogy. The Arrival Awakening Feel the Burn

Customer Reviews

I wasn't sure what to expect with this but the description was enough to pique my curiosity. The story is written in a style that I've only seen a few times before (I noticed a similar style in the Divergent series) where the story moves constantly between the characters view points. At first this slowed me down, but by the third chapter I'd got the hang of it. It added a depth and speed to the story so that even in the slower moments you still had plenty to intrigue. I wish

more writers would try this style it makes it quite exciting to read! The story was a classic style with a twist. I enjoyed having the female leads, they all have plenty of personality. It's hard not to give too much away in a review, but I felt you get it all from this story; romance, action, amazing fighting scenes (not boring!), intrigue and drama. The world and creatures are just fantastic, makes you wish you could travel there. I thought the first book in the set was 4/5, the second 4/5 and the third 5/5. Overall I give the set 4.5/5. I can see myself re-reading this set many times.

I never put spoilers in my reviews. One of the challenges in having read so many books is finding something unique. The author has built a very unique world. It starts off as many others the morphs into this fascinating, imaginative tale with plot twists that race you to the end. This is one of those genre defying books with elements of fantasy, romance and mystery well blended. I'm glad I got the entire trilogy at once as, when forced to take breaks, my mind kept coming back to the story. Definitely worth reading.

Excellent story, based in another world where there are griffons, centaurs, goblins, fae, good and evil, with a touch of romance. very well written, the story is based around the 4 girls who just happen to come from Earth and have happen to have been born with elemental powers which they have to learn to use to help fight the evil in the world including a journey to battle.

I absolutely loved this series. My husband complained because I kept reading it until it was done. The characters were interesting and engaging, the plot moved along at a good pace, and I always wondered what would happen next. As soon as I finished it, I was looking online to find the next book, and sadly there isn't one. Warning, the point of view changes between many characters, and it isn't labeled, so occasionally I wouldn't know who was talking/thinking for a few paragraphs. It can be a little confusing, but that's really overshadowed by the great story. I would absolutely recommend it to anyone who likes books with sword fighting, dragons, and magic told from mostly a 21st century woman's viewpoint. Very fun!

This book series has been extensively reviewed by others, so I won't bother with that. I loved this series. It has it all.....I laughed, I cried, I was happy, I was sad, I was ecstatic, I was angry. It is violent, it is tender! Hot romance, but not overdone, it's just enough. Not for Teens and YA!! The ending was a little disappointing. All the loose ends are tied up, which is good, but it leaves itself wide open for more books. I decided, I wasn't going to buy anything but novels or complete series,

(which I thought this was), and that is why I was disappointed in the ending. I get so tired of waiting for an author to put out the next book in their series, I lose interest and almost never get back to later books. It becomes a colossal waste of money!!

I came across these books on accident! It was the BEST thing I could've done! I could NOT put them down! This trilogy has it all- Love, excitement, sadness and action! The characters are fascinating and I find myself able to relate to them. I am anxiously awaiting the arrival of the next installment!

I have followed this author since she wrote the first book in the trilogy. This is an awesome series. The story keeps you enthralled and wanting more. The rewrite is definitely worth buying even if you've already read the original books. I've read them three times! I can't wait for the next series!

I would recommend this book to everyone who likes this type of reading. The best thing I have read in a while. It kept my attention totally throughout the book.
