Customer Reviews

This is not a coloring book. Rather, it is a book where the author took pictures of the city and used a photo editor to turn them into black and white sketchings. A coloring book has less lines and implies certain shapes. There is white between areas so that kids can color. This book is full of gray areas and too much detail. Now, if you are an artist visiting the city and want to compare your sketches to something - this is a great book. Since I was looking for a coloring book for my kids - it's unusable.
