Customer Reviews

I have been looking for something to bridge beginner and advanced level Spanish. This book was a review of beginner basics.

I purchased the Kindle version of this book, indicating that it comes with an audio. I could not access the audio, it kept saying click the link in an email sent to me but I have not received the email to date.

I recently moved and with our new proximity, we will be using Spanish. Now, I go an A in Spanish class, but high school is really far back there in my rear view mirror and I really like the idea of trying and learning with my new opportunities. Spanish: 201 Easy Spanish Phrases. . . Is an awesome beginning or the perfect refresher course. With good explanations and a great breakdown and easy to follow layout on some of the most common and frequently helpful phrases and words. It will help you feel a lot more comfortable if you truly don't speak the language. Some really helpful stuff I love is the info on greeting people and getting directions, that really helps you feel a bit independent and that you can explore and have a good time. And that gets us right to the helpful section on shopping and money. A great book that's coming with me on all my adventures.

this book is easy to use, whenever you travel or meet Spanish speaking persons as in my country where there is a high percentage of them, this book makes it easy to converse with them. a very good handibook

I have enjoyed reading this book.it has many useful phrases.

Great little book...needed phrases to become more comfortable in speaking Spanish!

ehhhh not impressed and not even helpfull

Loved the variety of the words and the easy usage of it
