Controversies In Globalization: Contending Approaches To International Relations, 2nd Edition

Synopsis

Debate-style readers can be effective and provocative teaching tools in the classroom. But if the readings are not in dialogue with one another, the crux of the debate is lost on students, and the reader fails to add real depth to the course. This book solves this issue by inviting 15 pairs of scholars and practitioners to address current and relevant questions in international relations through brief 'yes' and 'no' pieces.

Book Information

Paperback: 648 pages

Publisher: CQ Press; 2 edition (November 30, 2012)

Best Sellers Rank: #79,801 in Books (See Top 100 in Books) #166 in [Books > Politics & Social Sciences > Politics & Government > Specific Topics > Globalization](#) #167 in [Books > Textbooks > Social Sciences > Political Science > International Relations](#) #909 in [Books > Politics & Social Sciences > Politics & Government > International & World Politics](#)

Customer Reviews

Peter M. Haas (Ph.D., MIT) is professor and Graduate Program Director at University of Massachusetts at Amherst and specializes in international relations, international relations theory, international political economy, international environmental politics, international institutions, and global governance. He is a member of the editorial boards of *Journal of European Public Policy*, *Global Environmental Politics*, and MIT Press series on Politics, Science and the Environment and is the author or editor of *Emerging Forces in Environmental Governance* (edited with Norichika Kanie), *The International Environment in the New Global Economy*, *Knowledge, Power and International Policy Coordination*, *Institutions for the Earth* (edited with Robert O. Keohane and Marc A. Levy), and *Saving the Mediterranean*. John A. Hird (Ph.D., University of California at Berkeley) is professor of political science and Department Chair at the University of Massachusetts at Amherst. His areas of interest and expertise include policy advising, the use of science and technical knowledge in policymaking, policy analysis, and environmental policy. Prior to coming to Amherst,

he served at the Brookings Institution and the President's Council of Economic Advisers. He serves on the editorial board of the Journal of Policy Analysis and Management, and has consulted on issues from the Massachusetts economy to regulatory reform in Japan. He is the first recipient of the Mills Award from the Policy Studies Organization for an outstanding contributor to policy studies under age 35. His books include Power, Knowledge, and Politics: Policy Analysis in the States, Controversies in American Public Policy, and Superfund: The Political Economy of Environmental Risk, and he has published articles in the American Political Science Review, Journal of Policy Analysis and Management, Yale Journal on Regulation, Social Science Quarterly, and other professional journals.
