Customer Reviews

Paul Knorr lives in Melville, New York.

I use this book all the time. We throw a lot of parties and will use this to randomly pick shots. We then rate the shot and write in the book.

Bought this as a gift and it sits prominently in their kitchen. We now go to it every time we break out the alcohol.

This book is great! There are so many drinks/shots that I have never even heard of, and there are so many variations of the more common ones. I'll definitely be trying some of these!

Very extensive list of shots, very creative

I have bartending books that have all sorts of drinks. They are great for all sorts of drinks but when my guests start calling for shots at my home bar it is rather difficult to flip through to find shots, much less good shots. This book helps alleviate that problem! I will be putting this book to the test here come St. Patty's party!

Best shot book on market. Easy reference for bartenders to use. Shot names are in alphabetical order and index is by liquor brand.

The book had minor damages when I received it. I was only upset about this because it was a gift. We all love the book other than that! It has soooo many shots to choose from! They're all crazy and simple to make.
