## Customer Reviews

A must-have guidebook for families who live in or visit the Adirondack region. --Aubrey Bresett

Diane's a neighbor of ours, and she and her excellent family do more exploring of Adirondack lakes, trails, historic sites, and other points of interest than any people we know. An accomplished writer and editor, Diane brings her professional skills to bear on her passions for life, adventure, travel, and her family. The reader benefits on every page with one great suggestion for things to do after another. For families coming to the Adirondacks, there's no better resource to steer parents and kids toward the best possible things to do. This book would be supremely useful for empty nesters and those without kids, too. If you're coming to spend time in the Adirondack Mountains and their welcoming, vibrant villages, this book will get the good times rolling for all.

This handy guide with maps and directions stays in our family vehicle year round. So many pages

are dog-eared from use and many others are earmarked for future adventures. The book is set up well for day trips, short hikes, water excursions, and family fun around the Adirondack high peaks area. The author has a bounty of experience journeying with kids and her tips are humorous and thoughtful. Being new to the area when the book was released, the info was essential for us to get out, climb, explore and enjoy the surroundings! Highly recommended!

This book provides a great resource for both visitors to the area and locals alike. It helped us uncover some hidden gems that were practically in our own backyard. We also consult it frequently when we have friends with families coming to visit. Well written, it is engaging and helpful. Highly recommended!
