Strange True Encounters & Unearthly Experiences: 25 Mind-Boggling Reports Of The Paranormal - Never Before In Book Form

Synopsis

TOP 20 "Occult & Paranormal > Supernatural" FIRST NEW BOOK IN FATE MAGAZINE'S
"STRANGE" SERIES IN THREE DECADES! In 1965 FATE (founded 1949) released the first
book in its bestselling "Strange" series, reprinting many of the publication's most acclaimed
reports of paranormal phenomena selected from its pages. Over the next ten years the
"Strange" books sold over 6,000,000 copies worldwide. Strange True Encounters & Unearthly
Experiences is the first new book in the series in over three decades, and features: Robert M.
Schoch, Ph.D. in Geology and Geophysics at Yale University on discoveries at Anatolia's Gobekli
Tepe suggesting civilization is far older than previously believed. Gregory Sams on unfolding
evidence that stars may be conscious. Janet Brennan on Europe's mysterious Black Madonna
statues. Martin Cadin, ex-member Federal Aviation Administration, on his personal experiments
using telekinesis. Michio Kaku, Professor of Theoretical Physics at the City University of New York,
on our ten-dimensional universe and paranormal phenomenon. Journalist Chris Friar on 19th
century UFO sightings proving they are not a modern phenomenon. Actor Anthony Quinn on the
"profound mystical experience" in the Sinai Desert that changed his life. Plus over a dozen
other accounts, investigation and in-depth reports on the Ouija board, remote viewing, poltergeists,
Kansas' sacred sites, the U.S. warship that was saved by an angel, and much more. We believe
this brand new entry in the "Strange" series "is in every way the equal of its predecessors.
And will prove every bit as entertaining and enlightening as the earlier books did. (Asked where he
got the ideas for his stories, Steven King credited FATE. "My mother used to read me FATE
Magazine, which was about the paranormal, flying saucers, all that stuff. I was fascinated.") Here
is what readers have to say about classic reprints from FATE: "A book worth reading. I look
forward to reading the other books in this series." "FATE always comes through." "Well
written, short articles on a variety of paranormal events, many of which were unfamiliar to me.
Interesting, unfamiliar and competently edited." "Good stuff. Reminds us that stories like this
have been happening for years. Not just a modern invention. Worth a read." "Very good read. 5
stars."

Customer Reviews

This book was penned in 1965 but is highly readable in current times. It was a mixture of physical hard evidence such as the archeology at Gobekli Tepe , or a personal account of Anthony Quinn's in the Sinai peninsula. All In all there were twenty-five varying accounts of the paranormal/ancient civilization subjects that were thoroughly discussed. This book made me think and rethink. I'll be looking into more research being done.

This a book for a person who wants to think outside the box. I do believe there are many things not of this world that can't be explained. If we have a wonderful God which I believe we do He has so much more for us to learn! Thoroughly enjoyed this book.

I used to read Fate a long time ago. I just started reading this and the first story sucked, because the Author couldn't stop complaining about the Roman Catholic Church and crying like a little baby. I believed we have a wonderful God also , like the other reviewer said. These stories are still great. I loved Fate magazine and looking forward to more books like this. Just because I am Catholic, does not mean I don't believe in anything supernatural. All Churches are supernatural, as far as I'm concerned. Thank you for this book!

Not as good as I thought it would be.
