Discovering African American St. Louis: A Guide To Historic Sites

Synopsis

African Americans have been part of the story of St. Louis since the city's founding in 1764. Unfortunately, most histories of the city have overlooked or ignored their vital role, allowing their influence and accomplishments to go unrecorded or uncollected; that is, until the publication of *Discovering African American St. Louis: A Guide to Historic Sites* in 1994. A new and updated 2002 edition is now available to take readers on a fascinating tour of nearly four hundred African American landmarks. From the boyhood home of jazz great Miles Davis in East St. Louis, Illinois, to the site of the house that sparked the landmark *Shelley v. Kraemer* court case, the maps, photographs, and text of *Discovering African American St. Louis* record a history that has been neglected for too long. The guidebook covers fourteen regions east and west of the Mississippi that represent St. Louis's rich African American heritage. In the words of historian Gary Kremer, "No one who reads this book and visits and contemplates the places and peoples whose stories it recounts will be able to look at St. Louis in the same way ever again."

John A. Wright is an assistant superintendent of schools in the Ferguson-Florissant School District in St. Louis County.

Very informative on the metro east area surrounding St. Louis, mo, East St Louis, Il, etc. Dr. Wright is very informed on the African American community in the area, and the book is a display of that

knowledge.
