Wonderful for standardized test prep and part of a daily curriculum . I am a homeschooled and have used Wordly Wise for 15 years!

Only spelling we use at our home school.

Great for my 8th grade student!

good book

Love these for our kids!

Great series

I bought these for use with an intermediate/advanced ESL class (high school). This is the perfect level for them. I really like the exercises that go along with the words, using a definition parts matching activity, finding synonyms and antonyms and then the best part is the reading passage at the end with the vocab words in it. Prior to this I was creating all of my own vocab materials and it was very time intensive. This is probably the only manufactured resource that I've ever used that I

feel does a good job of getting the kids to practice the words in depth-- enough so that they seem to actually internalize the definitions. This does not come with the assessment book and I did have to purchase that separately. Also this takes a LONG TIME to grade, so if you are looking to give these out for a grade, know that it will take 10-15 minutes per packet to mark all of the answers.

Excellent material for widening a students vocabulary. Learning is enhanced by defining the new word, by using it in different ways and thru word usage in a short article, leading to complete comprehension of the word's usage. All this reinforces the new vocabulary learned making it easily recalled when the situation arises.
