Eric Alan Anderson is Director of Insurance Education for BISYS Education Services, based in Indianapolis, Indiana. He has almost 25 years of experience creating training and test preparation

materials for the financial services industry. In addition to authoring 17 insurance training texts and editing 8 others, he has written newsletters and magazine articles, and he has developed materials for audio cassette/workbook, videotape, computer disk and the Web. He has also taught basic English skills courses at the college level and has made presentations to national conferences of insurance associations. Jennifer Martin, CPCU, is Senior Editor of Property-Casualty Products for BISYS Education Services, based in Indianapolis, Indiana. She is the author of 17 insurance training texts and maintains 50 titles on BISYS Education Services' course list. Jennifer has also developed interactive web-based courses and written state insurance law digests, computer documentation, newsletters, online help, and corporate disaster recovery plans. Richard A. Morin, CIC, is a contract author based in Los Angeles, California. He has 35 years of experience writing and training on a broad range of subjects for the financial services industry. For several years, he was an editor for a major insurance training publisher, and he has also worked as an insurance underwriter, a rating supervisor and a licensed insurance and mutual fund sales representative.

In California, I just passed my P&C license exam. I originally signed up for Testteachers online, and I will be quite honest in that I thought the Testteachers books were a huge waste of money and time. Those books are way more expensive, and the wording of them was like reading the terms of conditions of stuff you don't need to know at all. I hated the format of the books so much, which is why I started looking for more materials in the first place. My girlfriend was studying to take her P&C license too, and also used this book as her primary method of studying. We both passed on our first attempt, myself receiving a 69% and she had 71% (CA lowered passing score to 60%) so definitely a thumbs up. If we could do it over again, we would not purchase any other books, other than this one. The practice exams that come with this book are fantastic.

I bought this book mainly for the exam simulator which is no longer supported by current operating system nor the publisher. But, I ended up still giving this 4 stars and here's why?... The book gives you a good overview on all iso products on the PNC outline ... i studied for the state of nj that i got supplement material from where i completed my required 40 hours to even take the exam...i read, took the exams on each chapter and used a separate test simulator. And, rinse and repeat with any areas i was lacking. This worked out well for me and i passed my exam easilly. I like the fact the book provised a .pdf version but only vice would be if you are charging extra on the book for the cd exam simulator then have it actually support current operating systems....

Great study aid but it's the 2009 edition. Luckily the P&C exams don't change much. It'll help you through them. You should buy it.

Packaged good and delivered on time. The book is easy to understand and good job explaining everything in simple terms.

EXTREMELY HELPFUL! Passed with flying colors!!! A++++++

This book will help successfully pass the state exam for an agents license. The individual state information, which is not included in this manual, is essential though and anyone using this book should supplement with information from the individual state on their license.

Wish I had read this before taking the AZ test!

Loads of great info. If you're disciplined to self-study, this book will save you plenty of money as you're not paying hundreds of dollars in taking an instructed course.
