# Chords For Kids: Easy To Read, Easy To Play, For Guitar & Keyboard (Easy-to-Use)

## Synopsis

"Chords for Kids" is a handy resource for children and early learners of guitar and keyboard. Chords are one of the most important ways that children can learn about music. They provide a fast route into playing with others and encourage a feeling for structure and composition. The simple and clean layout provides chord diagrams on each spread, for both guitar and keyboard, allowing a parent or teacher to explain easily. Using a simple tab-per-key approach, it covers all of the basic chords in each key, including majors, minors, triads, fourths, sixths, sevenths and ninths. Some variations are included at the back for further exploration.

## Book Information

Series: Easy-to-Use

Spiral-bound: 384 pages

Publisher: Flame Tree Publishing; Spi Rev edition (November 1, 2009)

Language: English

ISBN-10: 1847866557

ISBN-13: 978-1847866554

## Customer Reviews

Jake Jackson's publications, as writer, editor or contributor, include The Beginner's Guide to Reading Music, How to Play Classic Riffs and Play Flamenco. As guitarist and songwriter he has been in a few bands, including Slice, The Harmonics and Starbank and has studied a form of Flamenco guitar. Although Jake has a range of fine guitars in his house his favourite music software is Sibelius and, having worked with Cubase for many years, is now moving over to Logic Pro.

This is everything I needed! I play guitar (poorly) and wanted to be able to record some piano parts (equally poorly) without having to learn how to read music. This book has the guitar chord on one page and the corresponding piano chord on the facing page. Perfect for lazy, terrible musicians

such as myself!

very good thanks

Easy to use book for basic guitar chords and comprehensive piano chords. I play guitar already but want to learn piano chords. This book has been an excellent resource.

I bought this as a gift for my 9 year old niece and, upon opening, quickly realized how fantastic of a tool it is! The picture diagrams are easy to read and understand. I also love that the piano chords are there too!

I had bought my "Chords For Kids" in Pigeon Forge last year, and liked it so much, I tried to buy 4 more when we went there a month or so ago. "Out of print"....everywhere I'd go. When I returned home, I ordered the 4 from , and received them promptly. I gave all 4 to my friends, and they thanked me profusely. Thanks, . Dave Madewell.

Great book.

nice photos included of not only the chords, but also what strings not to strum to make the chord sound right. Extensive coverage of chords.

This book is for kids and adults. it has a diagram for piano and guitar of every chord you can imagine. My jazz loving 13yr old wanted to swipe it from his younger sister. There are no songs or anything with it, so you'd have to have another book to teach the kid a song with the chords they've learned
