## Customer Reviews

My daughter had me on a buying spree at B&N and since there was a great sale, I picked up a few books for her and my son. This was there, she really liked the Animal designs and I noticed it was a really well done book with quality pages and was very nice. We were overloaded with books and we will get this and some others we saw next time. Even though the pages were very good, I would still recommend using a safety sheet underneath, if you're going to be using markers. She uses mostly pencils and the sheets are excellent for that. This book has some great animal designs, check my pics for some, it is really well done!

This is a cute book of animal designs which have been "hand-selected" by the publishers (which means that they have licensed the images from the artists) from around the world. This gives us a variety of styles and designs within one book instead of having to purchase multiple books. Most of the designs in the book are full body but a few (such as the cover) are head shots.

The designs are mostly fairly simple to color but have enough detail to make coloring them fun. For the price, it is a great book to pick up if you are an animal lover and you like to finish your designs quickly. All of the designs stop well before the binding. The designs are printed on one side of thin white non-perforated paper that is typical for books published by CreateSpace. The binding is glued but there is plenty of room for you to cut a page out if you choose to do so. All of my markers bleed through and my gel pens either bleed through or leave a distinct shadow on the back of the page. My coloring pencils work well with the paper. I will use a piece of chipboard or heavy paper behind the page I am working on so I don't ruin the following page with leaking ink. While I could wish for thicker, perforated paper, it appears that this is the quality that comes from CreateSpace (which is an company.) What I really like about the CreateSpace is it is a way that independent artists can get their work self-published. That way, I get a huge choice of design styles albeit with not the best paper. These are the coloring medium that I use for testing. If there is something else you feel I should be testing, please let me know and I will see if I can add it to my growing pile: Markers: 1) alcohol-based "Copic Sketch, Prismacolor double ended markers (brush and fine point), Sharpies (fine and ultra-fine) and 2) water-based "Tombows dual end markers (brush and fine point), Stabilo 88, Staedler triplus fineliners, and Pentel markers Gel Pens: Sakura, Fiskars, Uni-ball Signo 0.38/0.28 and Tekwriter Coloring Pencils: Prismacolor Premier Soft Core, Derwent Colorsoft, Prismacolor Verithins, and Faber-Castel Polychromos

Who doesn't enjoy the look of lovely exotic animals right? This book has every animal you may hope to see in the wild. I really liked the wide variety of options to color. They all have very easy to color in designs and fairly nice sized areas to fill in which makes it easy to complete and turn out amazing. I used fine tip markers to do a few and was happy with the out come overall the pages are thick enough you did not have to worry about the ink going threw onto other pages. At the end of my days I just want to relax and do something easy to clear my mind and get ready for a good nights rest. Overall this is a high quality coloring book and I would highly recommend it. I got this using a gift card I had and this is my honest review all opinions are my own.

My 10-year-old received this (from me) as a Christmas gift and she's completely pleased. She's been using thin tip crayola markers, I was afraid they would bleed through, but I was happy to see that wasn't the case.

My 6 year old son was jealous of "Mommy's special coloring books" and kept getting angry I

wouldn't share, so I bought this one for him knowing how much he loves animals. The boy has hardly put it down and has been so careful with his coloring. So good for his fine motor skills and so much better than a video game. It calms him. These books are NOT just for adults!

I bought this adult coloring book for my grand son who is going to be 12. He loves anything artistic and he just loves animals. I looked through it and the detail to the animals is just amazing. Very professionally done. Once I send this to him for his birthday I will update this status after I find out what he thinks. I am very pleased with it.

Nice book, some pictures the print is a little thick and too many butterflies and birds, I'm guessing fillers. Out of all the books I've seen this is the cutest!

This is another great coloring book. It has nice pictures with great designs.
