This is an excellent road guide for Chile and Argentina (maybe the best), very accurate distances. Cities and some geographic aspects like lakes, parks and mountains. I can't say the same for the Brazilian part of it, many roads are not available. Don't expect to find hotels, restaurants and attractions from this atlas since it's specialized in maps.

Very complete set of maps. Maps in this scales are untraceable in Europe. An indispensable book for the travelers in Argentina. Pierre B from France !

I had to use this book for a report in my geography class on Uruguay, and it helped quite a bit!
