Customer Reviews

I am a professional collaborative pianist, and I like to buy vocal music so I can play the accompaniments in the original key, for my own personal enjoyment. The pieces in this book are in the correct, original keys, and because the edition contains most all of Schumann's well-known vocal pieces, it is a great resource for any accompanist or vocalist to have.

This book of selected songs is all what I expected ! And very good service, quick and efficient !
Thank you very much

This is a good collection of Schumann's songs. I sing a lot of his works so this is very handy to have.

Robert Schumann is an under-rated composer. On par with Beethoven. I recommend this book to

anyone who's studying music theory, or to anyone who plainly loves music.

At such a low price, this is an excellent collection of some of the best Lieder from this era.

Organized by opus, it is a great reference book for scholars, historians, theorists, singers, teachers, and song enthusiasts alike.

It came quickly and I saved money because it was slightly used. I will try this method again in the future.
