# Designing Sustainable Packaging

## Synopsis

This is a practical book on creating packaging prototypes that reflect sustainable and ecologically sound principles. It challenges the next generation of graphic designers to re-envision packaging design as a less environmentally destructive practice than it presently is, and examines an array of techniques and methodologies for creating innovative and sustainable packaging designs, from first concept to final production. The book is organized into two distinct sections embracing first the theory, including many case studies, and then the practice of eco-friendly packaging design. In the first part of the book, after introducing the student to the background of packaging design and its purpose, the author focuses on issues of sustainability. Through a series of case studies and interviews he looks at some of the companies that are leading the way in sustainable packaging. The second part of the book provides practical information on creating eco-friendly packaging and follows various projects through, step by step.

## Book Information

Paperback: 192 pages

Publisher: Laurence King Publishing (April 29, 2009)

Language: English

ISBN-10: 1856695972

ISBN-13: 978-1856695978

Product Dimensions: 8.5 x 0.8 x 11 inches

Shipping Weight: 2.1 pounds (View shipping rates and policies)

Best Sellers Rank: #458,088 in Books (See Top 100 in Books) #258 in [Books > Arts & Photography > Decorative Arts & Design > Industrial & Product Design](#) #1459 in [Books > Science & Math > Biological Sciences > Ecology](#) #4434 in [Books > Science & Math > Environment](#)

## Customer Reviews

Scott Boylston is a writer and professor of graphic design at Savannah College of Art and Design. He also lectures widely on the social, cultural, and ethical aspects of graphic design. He is the author and designer of *Creative Solutions for Unusual Projects*, and *Corrosion: Season of Anecdote, An Exploration of Ecological Decline Across the Globe*. Boylston previously worked as the art director of a New York City design firm and owned an environmentally-friendly surfwear company.

Interesting ideas and valid points, with creative approaches to conceptualizing how to design things in a way that benefits the environment. Good reference for packaging designers looking into how to look into designing sustainable packaging. Worth it!
