This book is actually produced by Faber Music, and I'm not sure what their relationship is with Alfred Publishing. I have a lot of Alfred piano music and this doesn't really stack up. The main problem is that the piano staves have been scaled down to about 75% of normal size, and the lines are now so faint that they are difficult to read. The book is also bound with a solid glued spine so it will not lay flat. I would consider having this rebound as a spiral book. The arrangements seem reasonably good. this is far from the "definitive songbook". there are many songs i've never heard of, and much popular songs have been left out. in addition there are many error in regard to which show the songs come from. it leaves a lot to be desired.

Bought this for a friend and he really, really loves it - and he's not a pianist - and he still loves it. Lots of tunes.

Missing a few of Porter's best such as "Can-Can," "You'd Be So Nice To Come Home To," and "C'est Magnifique" but on the whole a decent selection of his works.

Exactly what I was looking for. Perfect--and quickly delivered.

Good collection of Porter's work.

Purchased as a gift. He loved it!

Great collection
