## Customer Reviews

One of the most challenging aspects about traveling abroad, especially by yourself without the help

of a local, is finding a restaurant that doesn't make you sick. That maybe because you are new to the spices unique to the country, or maybe due to their unhygienic kitchen (the worst)! While the Internet is a useful source of information, it can be very difficult if their main language is not English. That is why I find this book very useful for non-Koreans who want to minimize the risk and maximize the joy. It has a nice compilation of restaurants and dessert cafes that are foreigner-friendly as well as authentic. As a Korean, I can attest to the statement that they are some of the best places I'd take my friends to when they visit Korea. Or, I'd be able to simply toss this book to them if I can't be their tour guide. It has photos, recommended menus, and prices as well as a short review/tips. I am glad there is an alternative to the infamous Michelin guide which is great for an everyday traveler who is willing to spend 90% of their travel expenses on food.

Excellent book written with unbiased opinion. This will be the only book you will need if you are traveling alone in Korea.

Inexpensive book with good theme cafes
