Great Wargaming book on gaming this period! High level overview of the period history and armies, with a nice, simple set of rules. CR

This is a small little book - but is a tremendous resource for wargamers. Good basic summary and history. Decent intro to rules and interesting discussion of troop types etc. The illustrations are all B&W and dated - somewhat hazy photos of wargame figures. Little help with 'uniform' details - a bit frustrating but it is a fun reference. Don't break the bank on this but if you have \$5-10 to spare - well worth it.

Excellent short summary of Late Roman military history, contains the rules for "Comitatus" -an excellent simulation for wargaming this period. Short but good bibliography of historical works as well as fictional works..."Eagle in the Snow" etc.
