Customer Reviews

One of those books which make you laugh, cry, dream and wish for better things. A beautiful story, albeit somewhat sad in parts, but that shouldn't stop anyone from reading it. I will look for more from this author. Highly recommended.

I read this entire series in just a few short days. In fact, hated to have to put them down to take care of family needs. Keep the Kleenex box handy! This is a series I will read again even knowing how it turns out at the end. I really do wish there were more books in this series.

This was really a page turner that kept my interest all through the book! Searching her mind to find a solution for a huge problem was very intriguing. Very well written!

I really love this book!! I love this family & felt their heartbreak, excitement, depth of commitment to each other! The author really brought the scenery to life, and she made me feel like I was right there, along for the journey. I can't wait to read the 2 sequels.

Wonderful story! Maureen made me laugh as I could relate to her relationship with her

sister. Wonderful love triangle.

What a delightful glance into yesteryear and how sweet it is when one realizes how the "heart" moves over and how blessings happen when you're really not looking.

I am sure I will enjoy this book, though I only got it yesterday. So I haven't had a chance to get into it, as I have started reading the Fatherland book.

This book was so good from beginning to end, I cried, laugh and remembered with them, and the characters each were so well written, can't wait to read more about them!!!
