The Essene Gospel Of Peace, Book One

Synopsis

Nearly two thousand years have passed since the Son of man taught the way, the truth and the life of mankind. He brought health to the sick, wisdom to the ignorant and happiness to those in misery. He conquered half of humanity and the whole of the civilization of the West. This fact proves the eternal vitality of the Master's words, and their supreme and incomparable value. The content of this book represents only about a third of the complete manuscripts which exist in Aramaic in the Secret Archives of the Vatican and in old Slavonic in the Royal Archives of the Habsburgs (now the property of the Austrian Government). We owe the existence of these two versions to the Nestorian priests who, under pressure of the advancing hordes of Genghis Khan, were forced to flee from the East towards the West, bearing all their ancient scriptures and ikons with them. The ancient Aramaic texts date from the 3rd century after Christ, while the old Slavonic version is a literal translation of the former. Exactly how the texts traveled from Palestine to the interior of Asia into the hands of the Nestorian priests, archeologists are not yet able to reconstruct for us. We have nothing to add to this text. It speaks for itself. The reader who studies the pages that follow with concentration, will feel the eternal vitality and powerful evidence of these profound truths which mankind needs today more urgently than ever before.

I first came to know the existence of this book as one of the references to a book on meditation on inner light and sound. I was blown away by the similarity of the principles of the meditation I have learnt and the words in the book that were supposed to have been Jesus's preaching. I am amazed to know that Jesus taught the same very principle and meditation method used today by the " Know Thyself as Soul" foundation headed by Master Baljith Singh. One should pay special attention to the excerpts from book 4 at the end of the book 1. I have recommended this book to many and bought many to give away to any one who has slightest inclination on true Spirituality. One need not to read volumes of books for spiritual awareness. Just follow the ten commandments to the T. I found that all re-legions point to that oneness. But we so caught up in who interpret what instead of doing the one thing that we are born to do on earth - to go back to our home. I am not endorsing any religions and I am not a Christian, Muslim, Hindu or Buddhist. I am just a human trying to be a being. Hope this helps.

Hmm a very interesting read. Very Good points and a history opens up a different light to what Believers are normally used to.

The second time I have read this book then just passed it along to someone else, I did not know, For me personally it resonates very high with me beliefs Thank you

Great book. Easy to read.Essential if you are studying the teachings of the Dead Sea Scrolls.This

book will make you think of how important is to eat haw/natural food.

It would be interesting if the author's dubious claim about where he discovered this gospel is true. I have doubts, though if he told the truth, the Catholic Church would clearly never admit to it.

Interesting read.

I believe there is a lot of truth in this little book. Check out the Raw foods diet!

Wonderful reading
