Customer Reviews

Today we live in a materialistic world where we don't give too much attention to the occult World. This books will introduce to the Wicca world and learn everything you need to know. I really enjoyed discovering the Wicca religion

This book is very long, but that's not a bad thing. It is a very good guide on Witchcraft and how to cast spells. Very crazy as I never knew something like this was possible. The guide contains "Recipes" for applying witchcraft with directions on what to do. Interesting book and a lot of content for your money. I was asked to leave an honest review on this book.

I have read some Wicca books earlier and i think i already know the beginning process of Witchcraft but i can't control my self to purchase this combo book. I am thankful to my self to take that decision this is a total Witchcraft package. This book includes a true guideline of putting a spell on someone

or something.

Very informative book on the Wicca religion. There is a lot of misconceptions out there and this book sets it straight with a lot insight into the details surrounding Wicca. Great for people just starting to look into Wicca or those who have a lot of experience. Good read.

I enjoyed reading the book, after buying it a couple other people wanted to read it so I bought another for a gift. It helped me understand more about it and myself. I plan on reading more. This is great for those new to Wiccan and ones who need a refresher. Very informative and easy to understand.

Everything you need to know about Wiccan practices is here. It is a very comprehensive series about witchcraft from the basics (for beginners) to spells and different kinds of Wiccan magic. The series gave an in depth look at Wiccan magic and it's really far from the books with stereotypical witchcraft topics. It's a great read.

Very informative! I'm surprised that these books are so cool! "Beginner's Guide" presents the history of Wicca religion and its beliefs, gives the overview of witchcraft. "Book of Shadows" is full of various spells. "Herbal magic" consists the information concerning helpful herbs for magic and spells. "Candle magic" prepares for magic using fire, explains the magical power of fire. And the last one "Altar" gives brief introduction and explanation of Wicca altar and its role in Wicca religion and witchcraft.

I've been interested in witchcraft and spells since I was a youngster, so this book was a must read. It's jam-packed with interesting spells and a thorough overview of the Wiccan religion. I really enjoyed the herbal and candle spells as well, I'd never come across these before - so interesting! A great read for budding witches.
